## Kaltura

# Using Kaltura Playlists in D2L - Kaltura Tutorial

This tutorial is designed for faculty who have previous experience using D2L, who have uploaded media to **My Media** in D2L, and who have added media and playlists to their **Course Media** gallery. For further information, please contact <u>elearning@camosun.ca</u> for assistance.

### Scenario

This tutorial will cover the steps involved when you wish to embed a playlist you have created in the **Course Media** gallery into the HTML editor in your D2L course. For the purposes of this tutorial, we will be embedding a Kaltura playlist into a Content Topic page.

### Steps

- 1. Go to your course in D2L.
- 2. Click Course Media.

3. Click the Channel Actions menu at the top right and select Edit.

4. Click Playlists.

Edit Media Gal	lery
Details Playlists	
Description:	Black ∨ Bold Italic <u>Underline</u> 📰 🖬 ፲⊑ 약 জি 🖬
	This is the Media Gallery for Training Course 03. Here you will find playlists relevant to each of the topics we are covering in this course.
Tags:	× training
Options:	<ul> <li>Moderate content (media will not appear in media gallery until approved by the gallery manager)</li> <li>Enable comments in Media Gallery</li> <li>Keep comments private to Media Gallery</li> </ul>

5. In the **Actions** column, click the **Embed** icon (</>) for the playlist you want to embed into the HTML editor. We will be making a copy of the embed code, so we can paste it into the HTML editor in the Content tool.

6. In the Share & Embed box, if needed, select the playlist view you prefer, Vertical or Horizontal, and the Max Embed Size. We recommend keeping Auto Play Off.

Click **Copy Embed**, then click **Done**. You can paste the code into a WORD document or a text editor if you like, or open another tab and get ready to copy it into the HTML editor (as per the steps below) before copying it.

Share & Em	nbed		
Embed Settings:			
Choose Player	Vertic I Player	~	eLerning
Max Embed Size	400x620	~	
Auto Play	Off		Module 1 Playlist 3 videos
<iframe http:="" src="http://www.src=" td="" www.src="http://www.src=" www.src"state-stat<=""><td>ps://admin.video.u</td><td>Copy Embed</td><td>pinkmoose Proje<sup>0:53</sup></td></iframe>	ps://admin.video.u	Copy Embed	pinkmoose Proje <sup>0:53</sup>
			Done

- 7. Go to the **Content** tool, and click on the title of the Module you want to add your playlist to.
- 8. Click **New** and select **Create a File**.

Search Topics Q	Kaltura Videos ~	🔒 Print 🗧	🔅 Settings
<ul><li>♥ Overview</li><li>□ Bookmarks</li></ul>	Add dates and restrictions Add a description		Draft 🗸
Course Schedul	New       Add Existing Activities       Bulk Edit         Uoload Files       Orag and drop files here to create and update topics		
₩ Kaltura Videos Draft	co or Audio Create a File Create a Link		
<ul><li>Sample Module</li><li>Sample Rubrics</li></ul>	Add from Manage Files		

9. Give your Topic a **Title**. Then click in the **HTML** editor box and add some text to provide a context for the playlist you will be embedding. For example, explain to your students what the playlist contains and how they should be using it. Make sure to hit your Enter key so your cursor appears below the text you just typed in, otherwise your playlist may not appear where you want it to! Click on the **Insert Stuff** icon at the top left of the HTML editor.

14. You will now see your playlist embedded in the Topic page.

## Things to Remember

If you decide you don't like the playlist view (horizontal or vertical) you have chosen, you will have to go back to Step 6 to change the view and re-copy the code, and then go back to your page, delete the previously embedded playlist, and paste the *new* code into **Insert Stuff**.
