

## Viewing Attempts Logs for a Quiz – D2L Tutorial

This tutorial is for faculty who have previous experience using the Quizzes tool in D2L. For further information, please contact [elarning@camosun.ca](mailto:elarning@camosun.ca) for assistance.

### Scenario

This tutorial will discuss how to review the Attempts Logs for a quiz. Use the **Attempt Logs** to view Quiz Entry, Quiz Completion, Quiz Attempt Deleted, and Quiz Attempt Restored. This function is especially useful if you need to check when a student started or completed a quiz.

### Steps

1. Go to the **Quizzes** tool in your course.
2. Click the down arrow next to a Quiz title and select **Attempt Logs**.

- The **Overview** tab shows a list of Quiz Entry, Quiz Completion, Quiz Attempt Deleted, and Quiz Attempt Restored (note that quiz attempts cannot be deleted or restored by students). You can sort by each of these by clicking on the relevant tabs. Here we have clicked on **Quiz Entry** to see all the points when a student entered a quiz.

Use this Detailed data to track a student's progress through the quiz. For example, you can see when students answered each question, as well as if they exceeded the time limit for a quiz (note that in an enforced time limit situation, students **cannot** change any answers once the time runs out, but may take extra time to look over their quiz again before submitting), or if they re-entered a quiz they already started.
