

Sorting the Calendar in D2L – D2L Tutorial

This tutorial is designed for faculty who have previous experience using the various tools in D2L. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

Scenario

This tutorial will cover the steps involved when you want to enter items or tasks into the Calendar tool in D2L.

Steps

1. Go to the **Calendar** tool in your course.
2. Choose the Calendar view you prefer (**Agenda, Day, Week, Month, List**). Click **Create Event**.

The screenshot shows the D2L Calendar tool interface for 'Training Course 03'. The navigation bar includes 'Course Home', 'My Tools', and 'Edit Course'. The view selector at the top shows 'Agenda', 'Day', 'Week', 'Month' (selected), and 'List'. A red box highlights this selector, and a red arrow points to it from the right. Below the view selector, there are buttons for 'Create Event' (highlighted with a red box and arrow), 'Set Dates', and 'Import Events'. The main calendar area displays a grid for September 2018, with events scheduled for the 13th and 20th. A secondary calendar view is visible on the right side of the screen.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
26	27	28	29	30	31	1
2	3	4	5	6	7	8
9	10	11	12	13 1st 11:30 PM	14	15
16	17	18	19	20 #2 11:30 PM	21	22
23	24	25	26	27	28	29
30	1	2	3	4	5	6

3. Click **Add Content** if you wish to link your event directly to a Topic in your Content area. Give your event a **Title**, and add a **Description** if you wish.

Things to Remember

All events you enter in the calendar will be visible to all the students in your Classlist, unless you have selected Attendees, or restricted access to Tools that populate the calendar automatically to a specific group of students.

Tools that can populate the Calendar automatically with events are:

- Assignments
- Checklists
- Discussions
- Grades
- Modules and Topics (in the Content tool)
- Quizzes and Surveys

And dates set in these tools that will appear in the Calendar automatically, in the following order:

- If there is a Start date, that will appear in the calendar.
- If there is an End date *and* a Start date, the **End date** alone appears in the calendar (NOT the Start date).
- If there is a Due date, the **Due date** alone will appear in the calendar (NOT the Start or End dates if either or both of those are also set up).

Note that students CANNOT enter items into the Calendar. They can only enter personal reminders in the **Tasks** area of the Calendar.
