

Changing Images in your My Courses Widget – D2L Tutorial

This tutorial is designed for faculty who have experience using D2L. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

Scenario

This tutorial will cover the steps involved when you wish to change your course's image that appears in the My Courses widget on the main Camosun D2L Homepage.

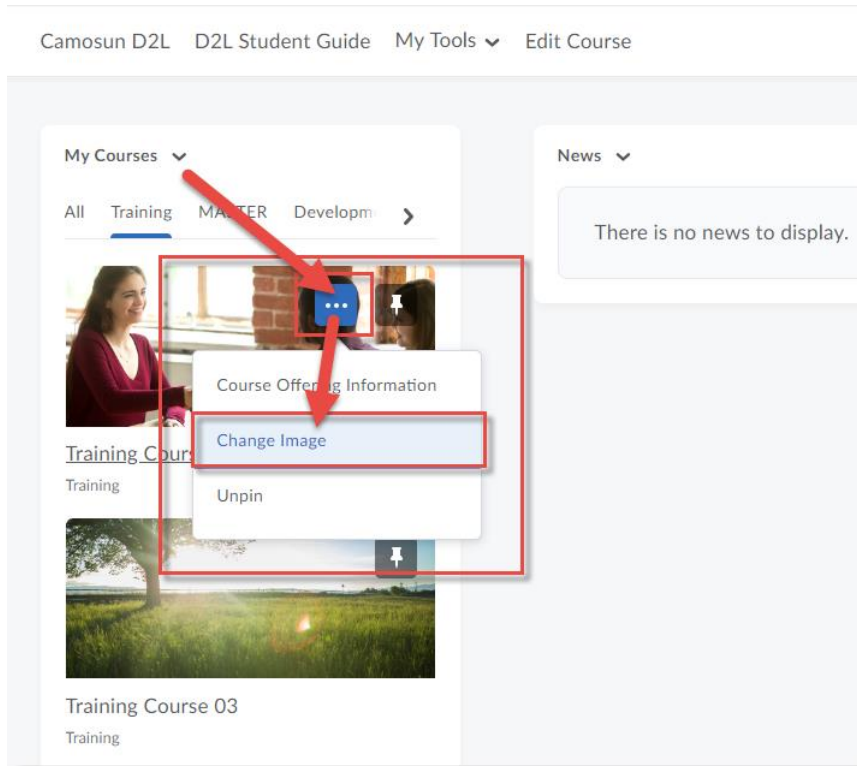

Steps

1. Log into D2L.
2. In the **My Courses** widget, find your course (use the term scroll bar at the top to find current courses.)

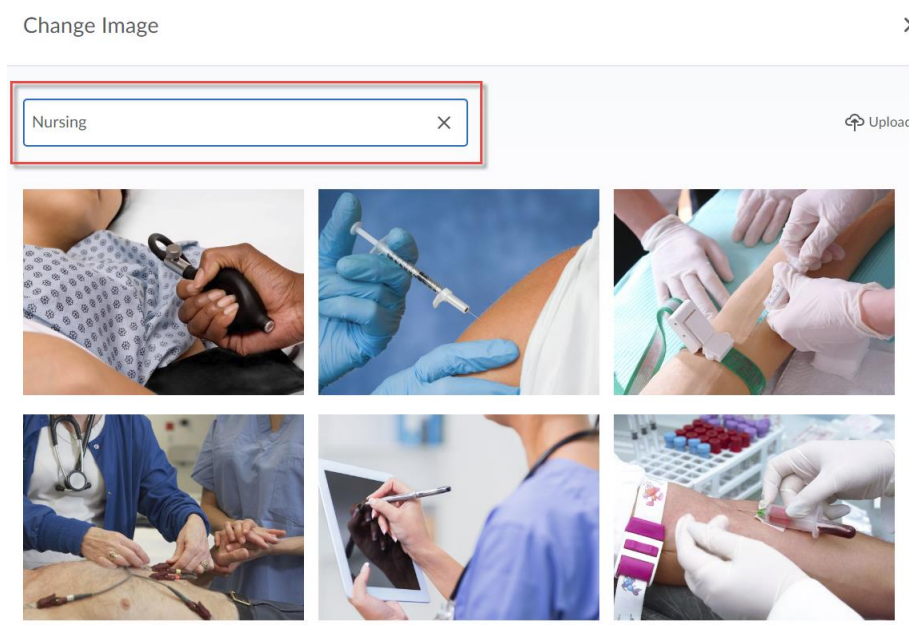

The screenshot shows the D2L interface. At the top, there is a navigation bar with the Camosun logo and user profile 'Emily Schudel'. Below this is a breadcrumb trail: 'Camosun D2L > D2L Student Guide > My Tools > Edit Course'. The main content area features a 'My Courses' widget. At the top of this widget is a term selection bar with buttons for '2018S', '2018F' (which is highlighted with a red box and a red arrow), and '2017W'. Below the term bar is a grid of course cards. The first card is for '(NURS-110-X02) The Profession of Nursing' for the 2018F term, featuring a photo of white cubicles. The second card is for '(COMP-030-S01) Fundamental Computer Studies' featuring a photo of a starry night sky. To the right of the 'My Courses' widget is a 'News' widget with the text 'There is no news to display.'

3. Hover your mouse over your course's image, and click the three dots. Select **Change Image**.

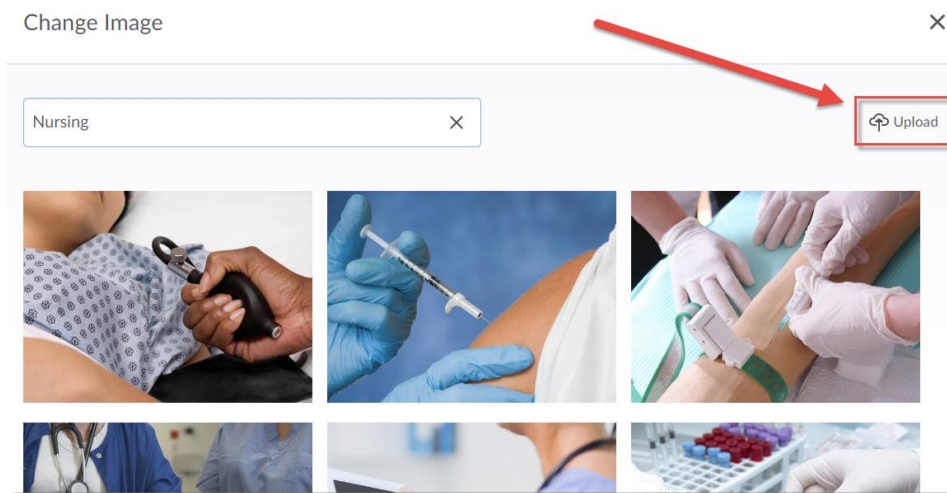

4. On the Change Image page, scroll through the images to find one works for you. You can also use the search box to find images matching a specific topic. For the purposes of this tutorial, we have searched for images related to **Nursing**.

5. You can also upload an image from your computer by clicking **Upload**.

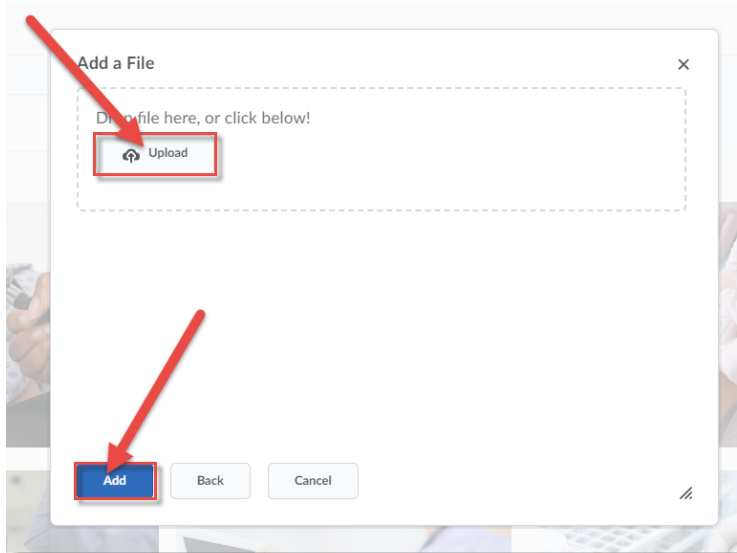

And then in the **Add a File** box, clicking **My Computer...**

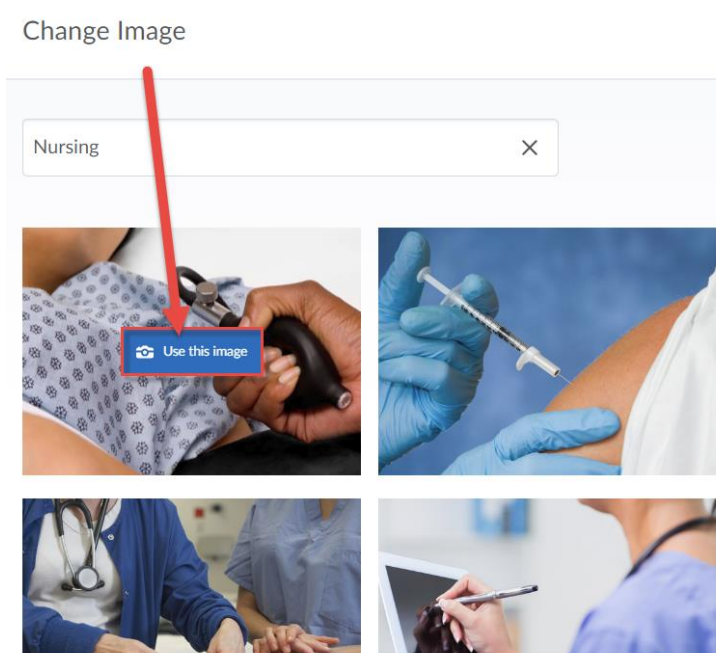

This content is licensed under a [Creative Commons Attribution 4.0 International Licence](https://creativecommons.org/licenses/by/4.0/). Icons by the [Noun Project](https://nounproject.com/).

And finally, clicking **Upload**, finding the image on your computer, and clicking **Add**.

6. Hover your mouse over the image you want, and click **Use this image**.

Things to Remember

Note that not all images will look good as a My Courses widget image. If you are uploading an image from your computer, you may first need to edit and resize it to make sure it looks right.

You can also add the image you have chosen in the My Courses widget as a banner on your course's homepage. For instructions, see the tutorial *Adding a Banner Image to your Course Homepage*.
