

Copying Kaltura Media to another D2L Course – Kaltura Tutorial

This tutorial is designed for faculty who have previous experience using D2L, who have uploaded media to **My Media** in D2L, and embedded videos and/or playlists in Content. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

Scenarios

This tutorial will cover the steps involved when you wish to copy your Kaltura media from one course to another (for example, from your DEV course into your live course site).

You can either copy all components or copy select components of your DEV site to your live D2L course to achieve this. If you **Copy All Components**, everything will copy (except for the **Course Media gallery**) so there should be no issues, therefore we will go through the steps involved when you are just copying selected components, for example, Content pages containing embedded videos and/or playlists only.

If you have enabled the **Course Media** area in your course, note that you cannot copy the **Course Media** area from one course to another because it is specific to *an individual* D2L course site. Therefore, you will need to build a **Course Media** area for *each* D2L course site from your **My Media** (which remains intact no matter which course you are working in).

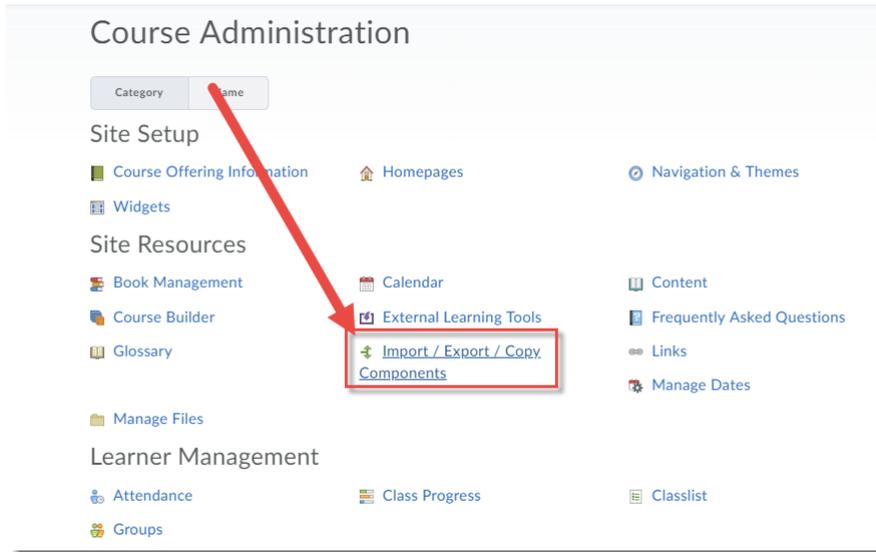

Steps

1. Go to the course in D2L you wish to copy TO.
2. Click **Edit Course**.

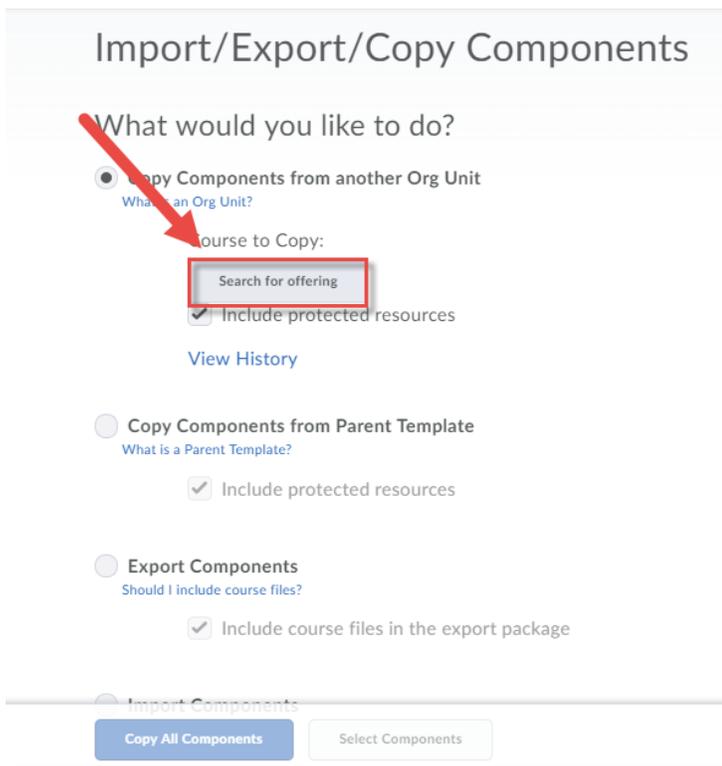

The screenshot shows the D2L interface for 'Training Course 03'. At the top, there is a navigation bar with 'CAMOSUN eLearning' on the left and several utility icons on the right. Below this, a secondary navigation bar contains 'Training Course 03', 'Course Home', 'My Tools', 'My Media', and 'Edit Course'. The 'Edit Course' link is highlighted with a red box and a red arrow. The main content area has a large header image of a bear's face with the text 'Training Course 03'. Below the header, there is a 'News' section with a 'Welcome to D2L Daylight!' announcement posted on Mar 21, 2014. To the right, there is a 'Territorial Acknowledgement' section with a photo of purple flowers and text acknowledging the traditional territories of the Lkwungen and WSÁNEĆ peoples.

3. Click **Import/Export/Copy Components**.

4. Click **Search for Offering**.

- Find the course you want to copy FROM, select it, and click **Add Selected**.

Select Course Offering

Training Course 03

Import Components

7. **Select Content** (and **Select individual items to copy** if needed), AND select **External Learning Tool Links**. This second is very important as it is the link to the Kaltura video embeds in the Content you are copying. Click **Continue**.

Choose Components to Copy

▶ Show the current course components

Select All Components

- Attendance Registers (1 item(s))
 - Copy all items
 - Select individual items to copy
- Calendar (1 item(s))
 - Copy all items
 - Select individual items to copy
- Checklists (1 item(s))
 - Copy all items
 - Select individual items to copy
- Content (43 item(s))
 - Copy all items
 - Select individual items to copy
 - Include associated files
- External Learning Tool Links (8 item(s))
 - Copy all items
 - Select individual items to copy
- Content Display Settings
 - Copy all items
- Course Files (588 item(s))
 - Copy all items
 - Select individual items to copy
- Discussions (8 item(s))
 - Copy all items

8. If you have opted to select individual items, select them on the next page, and click **Continue**. If not, go to Step 9.

Select Content Modules and Topics

Select Content Modules and Topics to Copy

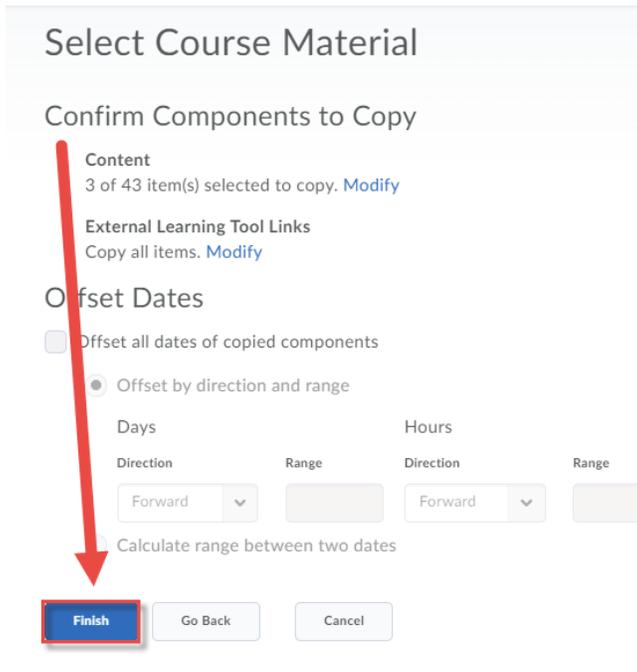

Select All

Expand All Collapse All

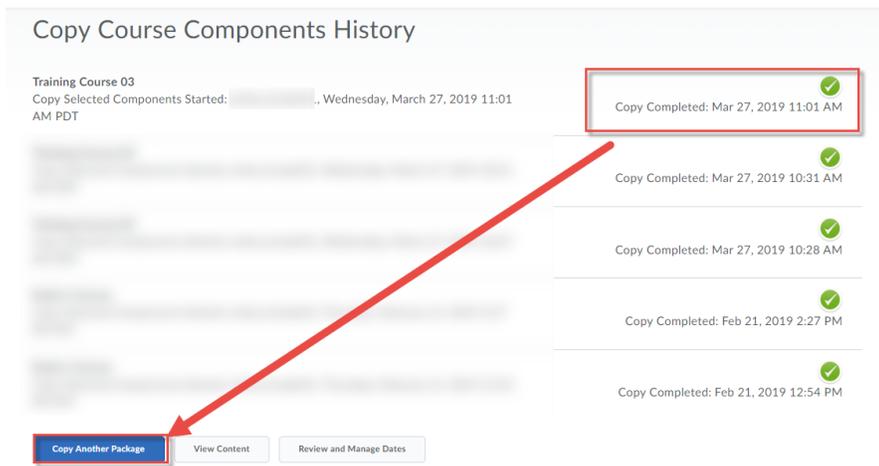

- Audio Embed Sample
- Gamification
- Intelligent Agents
 - Kaltura Videos
 - Chapter 2 Playlist
 - Kaltura Video Test
- Sample Food Micro Content
- Sample Module
- Sample Rubrics
- Templates

9. Click **Finish**. Then wait for copying to be completed.

10. Click **View Content**.

11. Click on the Topics you copied to make sure the embedded videos and/or playlists work.

Things to Remember

For information on how to share your Kaltura media with other faculty members who don't have access to your course (for example, your DEV or Master course), see the tutorial *Sharing Kaltura Media with Other Faculty*.
