Approving Student Videos Published to Course Media – Kaltura Tutorial

This tutorial is designed for faculty who have previous experience using D2L and Kaltura. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.
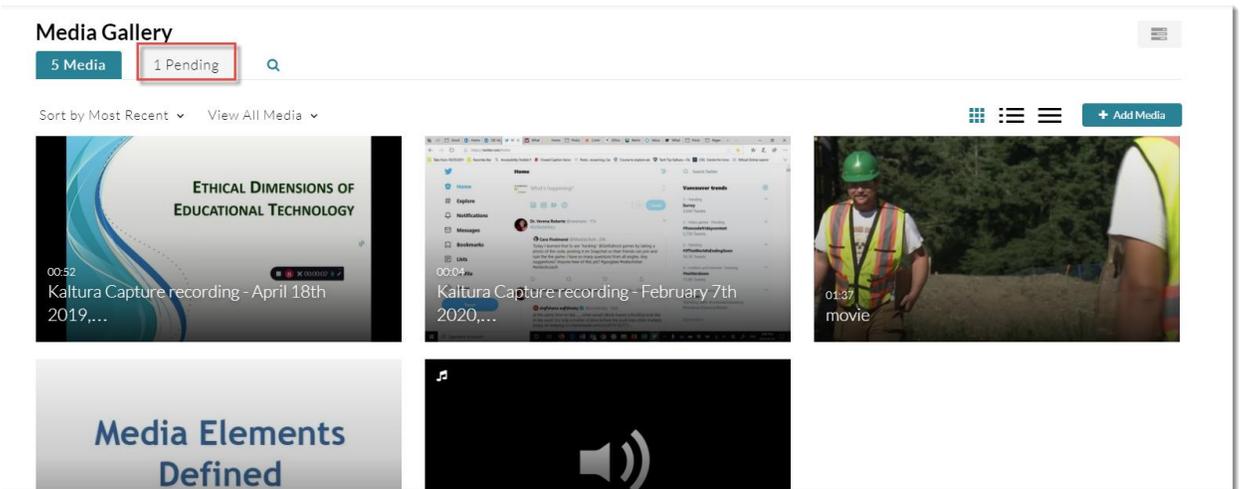

Scenario

This tutorial will cover the steps involved when you wish to approve the publishing of a student video to the **Course Media** gallery.
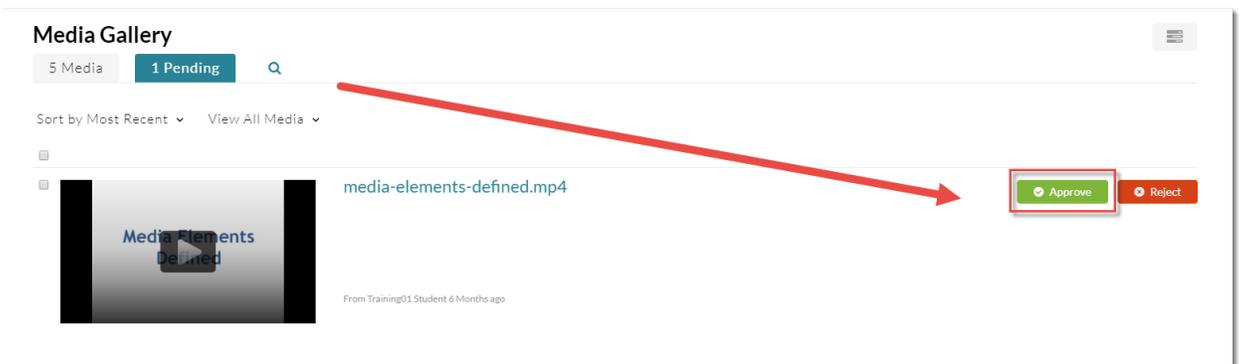

Steps

1. Go to your course in D2L and click **Course Media**. For the purposes of this tutorial, the link is on the NavBar.

2. Click the **Pending** tab.

3. Click **Approve**.

4. Your students will now be able to see all approved videos in the **Course Media** gallery.

Things to Remember

If you have not set your Course Media gallery to **Moderate Content**, students can automatically Publish to the Course Media gallery in a course site. For information on how to set your Course Media gallery to **Moderate Content**, see the tutorials *Using the Course Media Gallery*.
