

Enabling or Disabling Comments in the Course Media Gallery – Kaltura Tutorial

This tutorial is designed for faculty who have previous experience using D2L and Kaltura. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

Scenario

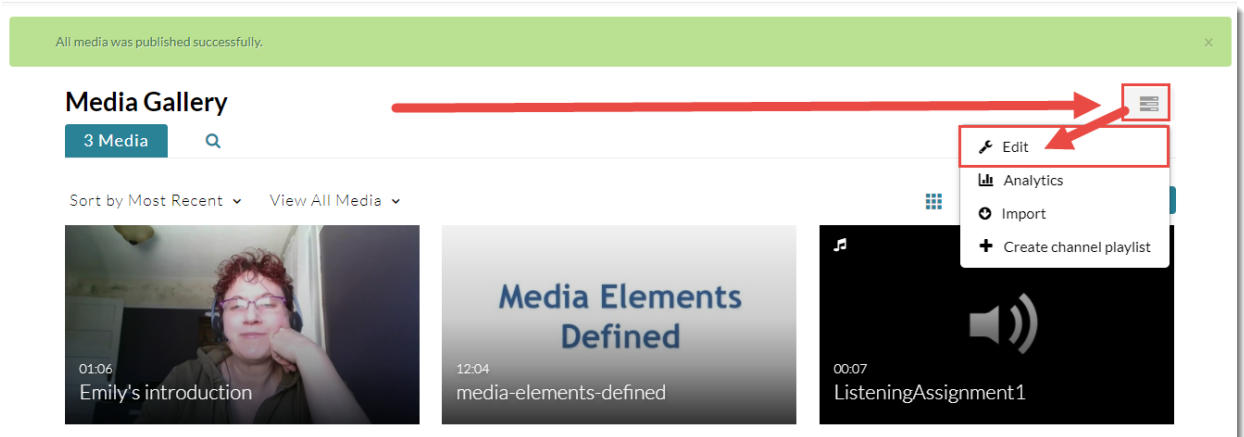

This tutorial will cover the steps involved when you wish to enable (or disable) commenting in the **Course Media** gallery. Enable comments if you would like students to provide feedback, etc. on other student (or faculty) videos published in the Course Media gallery.

Steps

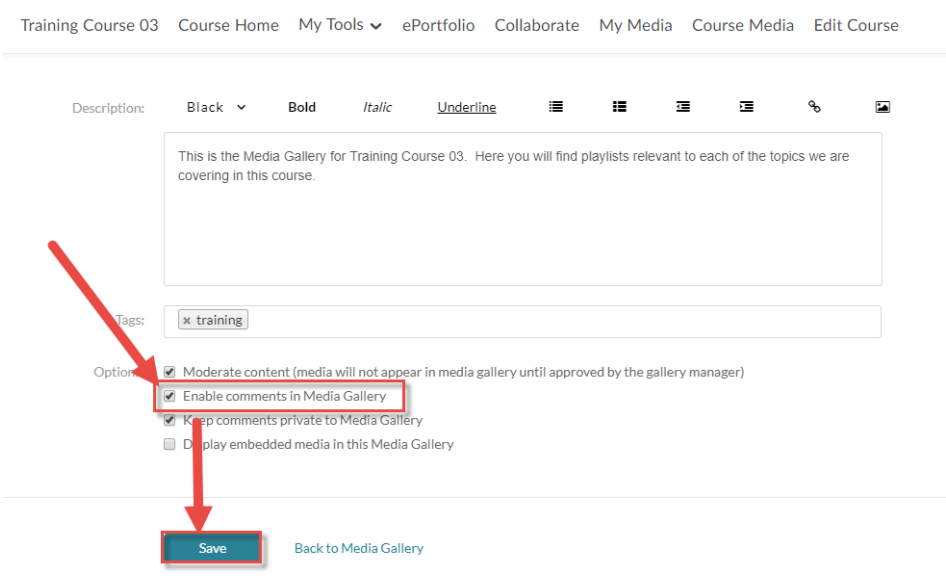

1. Go to your course in D2L and click **Course Media**. For the purposes of this tutorial, the link is on the NavBar.

The screenshot shows the D2L course interface for "Training Course 03". The navigation bar at the top includes "Training Course 03", "Course Home", "My Tools", "My Media", "Course Media" (highlighted with a red box and a red arrow), and "Edit Course". Below the navigation bar is a banner image of a bear's face with the text "Training Course 03". The main content area is divided into two columns. The left column contains a "News" section with a "Welcome to D2L Daylight!" announcement, posted on Mar 21, 2014 10:52 AM. The right column contains a "Territorial Acknowledgement" section with a photo of purple flowers and text stating: "Camosun College campuses are located on the traditional territories of the Lkwungen and WSÁNEĆ peoples. We acknowledge their welcome and graciousness to the students who seek knowledge here."

2. Click the **Channel Actions** menu (at the top, right), and select **Edit**.

3. Select **Enable comments in Media Gallery** to enable commenting (or deselect it if you are disabling them). Then click **Save**.

4. You and your students will now be able to comment on videos published to the **Course Media** gallery.

Things to Remember

One way to use comments in the **Course Media** gallery is to have students publish individual or group presentation videos to the Course Media gallery and invite comments on the presentation videos from fellow students. Just a different way to engage around videos from, for example, using the **Discussions** tool.
