

## Exempting Students from Grades – D2L Tutorial

This tutorial is designed for faculty who have previous experience using the Grades tool in D2L. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

### Scenario

This tutorial will cover the steps involved when you want to exempt a student from a specific grade item, for example, if a student has missed an assessment due to illness and you want that assessment to be excluded from her final grade (meaning that her final grade will be automatically recalculated to exclude that grade item).

### Steps

1. Go to the **Grades** tool in your course, and make sure you are in the **Enter Grades** area.
2. Click the down arrow next to the title of the item you wish to exempt the student from, and select **Grade All**.

The screenshot shows the 'Enter Grades' interface in D2L. At the top, there are tabs for 'Enter Grades', 'Manage Grades', and 'Schemes'. Below the tabs are buttons for 'Import', 'Export', 'Switch to Spreadsheet View', and 'More Actions'. A note indicates that some grade items/categories are not displayed and suggests clicking 'Manage Columns' to change which items are visible. There is a 'View By:' dropdown set to 'User' and a search bar. Below the search bar is an 'Email' icon. The main part of the interface is a table with columns for 'Last Name, First Name', 'Presentation 1', 'Presentation 2', 'Presentation 3', and 'Subtotal'. The table contains several rows of student data. A red arrow points to the 'Grade All' option in the dropdown menu for 'Presentation 2'.

	Last Name ▲, First Name	Presentation 1	Presentation 2	Presentation 3	Subtotal
<input type="checkbox"/>	A_Student, Demo	87.5 %	-%		8.75 / 10, 87.5 %
<input type="checkbox"/>	Student, Training01	72.5 %	-%		7.25 / 10, 72.5 %
<input type="checkbox"/>	Student, Training02	40 %	-%		4 / 10, 40 %
<input type="checkbox"/>	Student, Training03	98.75 %	-%		9.88 / 10, 98.75 %
<input type="checkbox"/>	Student, Training04	62.5 %	-%	-%	6.25 / 10, 62.5 %

3. Select the student you want to exempt, then click **Exempt**. The word Exempt will appear in the Scheme column for that student. Click **Save and Close**.

## Things to Remember

Exempting a student from a grade is not the same as dropping the lowest grade item in a Category. See the tutorial *Dropping the Lowest Grade Item in a Category* for further information.
