

## Exempting Students from an Item in a Category – D2L Tutorial

This tutorial is designed for faculty who have previous experience using the Grades tool in D2L. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

### Scenario

This tutorial will cover the steps involved when you want to exempt a student from a specific grade item, but have her grade go to another specific grade item (for example, if she missed the Midterm and you want to exempt her from the Midterm and have the Midterm grade to automatically go to the Final Exam grade).

### Steps

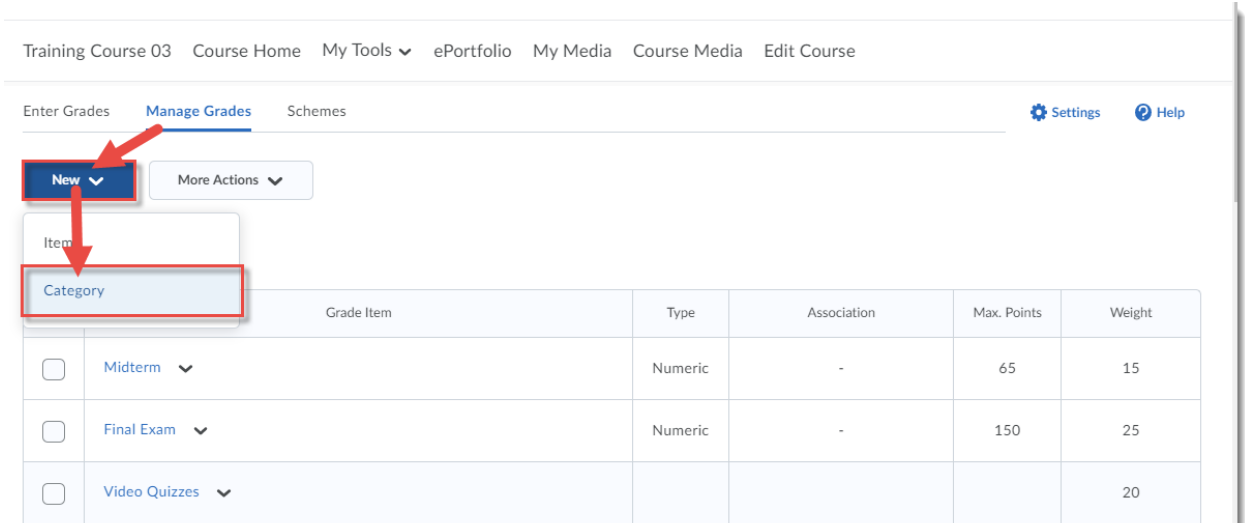

1. Go to the **Grades** tool in your course, and make sure you are in the **Manage Grades** area.

The screenshot shows the D2L interface for 'Training Course 03'. The 'Manage Grades' link is highlighted with a red box and a red arrow. Below the navigation bar, there are buttons for 'New' and 'More Actions'. A 'Bulk Edit' link is also visible. The main content area contains a table with the following data:

<input type="checkbox"/>	Grade Item	Type	Association	Max. Points	Weight
<input type="checkbox"/>	Midterm ▾	Numeric	-	65	15
<input type="checkbox"/>	Final Exam ▾	Numeric	-	150	25
<input type="checkbox"/>	Video Quizzes ▾				20

2. Create a Category for the items in question, here, the **Midterm** and **Final Exam** items – we will call the Category **Exams**. Make sure the Category weight is the sum of the **Midterm** (here 15%) and **Final Exam** (here 25%) weights in the gradebook. Here, the Category weight will be  $15\% + 25\% = 40\%$ . Select **Manually assignment weight to items in the category**, and click **Save and Close**.

3. Edit each grade item (**Midterm** and **Final Exam**) and move them into the **Exams** Category, setting their weightings accordingly (so that they will still hold the same weight in the gradebook.) For this example, the **Midterm** should be weighted to 37.5% ( $15 \times 100 / 40$ ) within the Category, and the **Final Exam** weighted to 62.5% ( $25 \times 100 / 40$ ) within the Category.

4. When you are ready to exempt the student from the Midterm, go to the **Enter Grades** area.

The screenshot shows the 'Enter Grades' interface. At the top, there are tabs for 'Enter Grades', 'Manage Grades', and 'Schemes'. Below the tabs are buttons for 'New', 'More Actions', and 'Bulk Edit'. A table lists grade items:

	Grade Item	Type	Association	Max. Points	Weight
<input type="checkbox"/>	Exams				40
<input type="checkbox"/>	Midterm	Numeric	-	65	37.5
<input type="checkbox"/>	Final Exam	Numeric	-	150	62.5

5. Click the down arrow next to the title of the item you wish to exempt the student from, and select **Enter Grades**.

The screenshot shows the 'Enter Grades' interface with a table of students. The 'Midterm' column has a dropdown menu open, and the 'Enter Grades' option is highlighted with a red box and an arrow.

	Last Name ▲, First Name	Final Grades	Exams	
		Final Calculated Grade	Midterm	Final Exam
<input type="checkbox"/>	Student, Training01	-	<input type="text"/> / 150	<input type="text"/> / 150
<input type="checkbox"/>	Student, Training02	-	<input type="text"/> / 150	<input type="text"/> / 150
<input type="checkbox"/>	Student, Training03	-	<input type="text"/> / 150	<input type="text"/> / 150
<input type="checkbox"/>	Student, Training04	-	<input type="text"/> / 150	<input type="text"/> / 150

6. Select the student you want to exempt, then click **Exempt**. The word Exempt will appear in the Scheme column for that student. Click **Save and Close**.

Grade Item: Midterm ▾

7. In the Confirmation pop-up, click **Yes**. The selected student will now have a Final Grade calculation which excludes the exempted item.

**Confirmation**

You are about to save changes. Are you sure you want to continue?

## Things to Remember

Note that you can move items into a Category at any point during the term – just make sure the calculations are the same and other students won't see a difference in their grading.

Exempting a student from a grade is not the same as dropping the lowest grade item in a Category. See the tutorial *Dropping the Lowest Grade Item in a Category* for further information.
