

Printing Content – a Student Tutorial

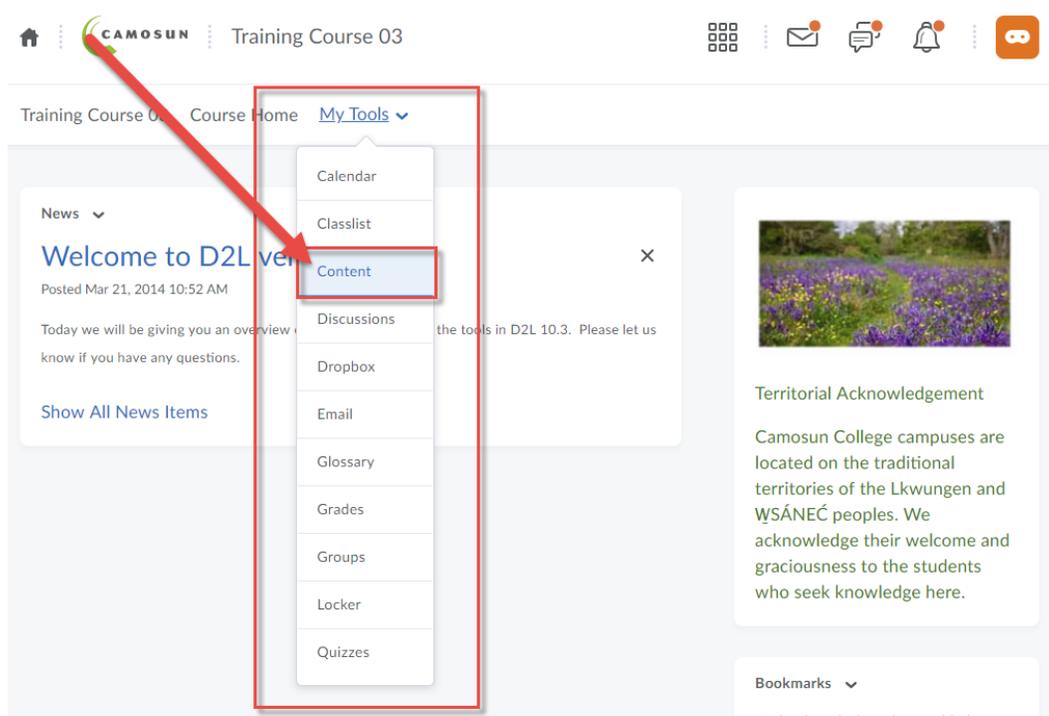

This tutorial is for students who want to print course materials in the Content tool. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

Scenario

This tutorial will cover the steps involved with printing course materials (PDFs, WORD documents, PPTs, etc.) in the Content tool.

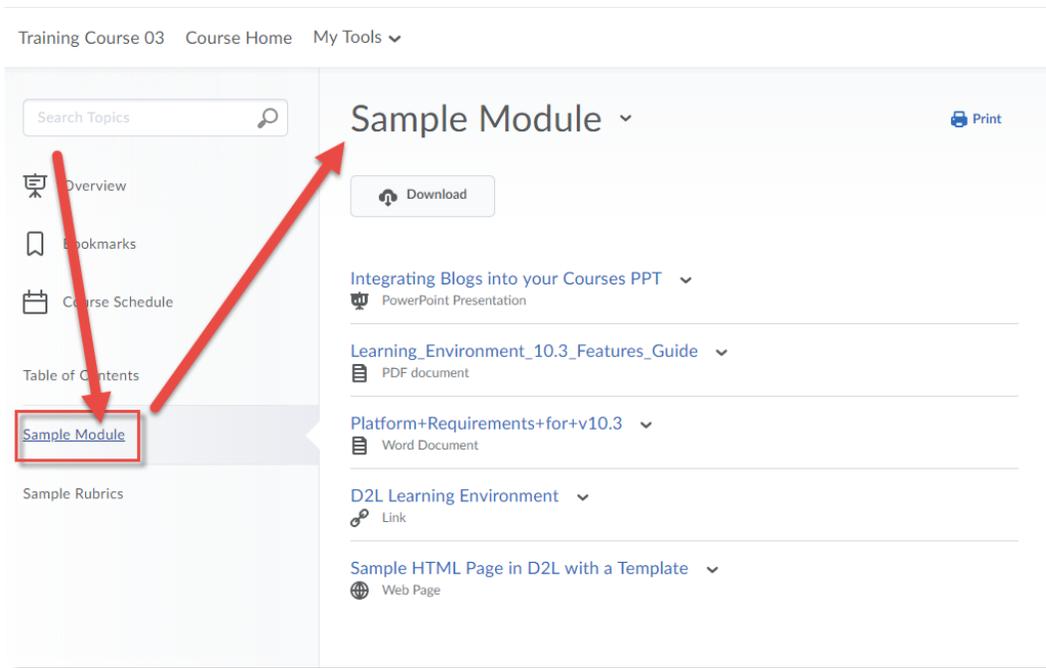

Steps

1. Go to your course in D2L.
2. Go to the **Content** tool (through the Tools drop-down menu in the navigation bar).

To print documents (WORD, PDF, PPT)

3. In the **Table of Contents** box, click on the title of the Module containing the files/pages you want to print.

To print multiple pages of Content

1. In the **Table of Contents** box, click on the title of the Module you want to work with.

2. Click the **Download** button at the top of the page. The files in the Module will be “compressed” into a zip file, which you can save onto your computer, and then unzip into separate files which you can then print.
