

## Releasing Final Adjusted Grades – D2L Tutorial

This tutorial is designed for faculty who have previous experience using the Grades tool in D2L. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

### Scenario

This tutorial will cover the steps involved when you wish to release your Final Grades to your students.

### Steps

1. Go to the **Grades** tool in your course, and make sure you are in the **Enter Grades** area.
2. Click on the down arrow next to the **Final Grade** (Calculated or Adjusted) and select **Enter Grades**.

The screenshot displays the D2L Grades tool interface. At the top, there are navigation links: Training Course 03, Course Home, My Tools, ePortfolio, My Media, Course Media, and Edit Course. Below these are tabs for Enter Grades (selected), Manage Grades, and Schemes. A toolbar contains buttons for Import, Export, Switch to Spreadsheet View, and More Actions. A 'View By:' dropdown is set to 'User' with an 'Apply' button. A search bar is labeled 'Search For...' with a magnifying glass icon and a 'Show Search Options' link. An 'Email' icon is visible. The main table has columns for 'Last Name, First Name', 'Final Grades', 'Exams', 'Subtotal', and 'View'. The 'Final Grades' column has a dropdown menu open, showing options: 'Enter Grades' (highlighted with a red box), 'View Statistics', and 'View Event Log'. A red arrow points from the 'Enter Grades' option in the dropdown to the 'Final Grades' column header.

3. First, you want to transfer all the Final Calculated Grades into the Final Adjusted Grade column. To do this, click on the down arrow next to the title **Final Grades**, and select **Transfer All**.

The screenshot shows the 'Final Grades' interface. At the top left, there is a dropdown menu for 'Final Grades' with a red box around it and a red arrow pointing to the 'Transfer All' option. Below this, there are buttons for 'Event Log', 'Recalculate All', 'Transfer All', 'Clear All', 'Add Feedback for All', and 'Release All'. The main area contains a table with columns for 'Last Name, First Name', 'Final Calculated Grade' (with sub-columns for 'Grade' and 'Scheme'), 'Final Adjusted Grade' (with sub-columns for 'Grade' and 'Scheme'), 'Feedback', and 'Released'. A row for 'A\_Student, Demo' is visible, showing a grade of 19.42 / 39 and a scheme of D. At the bottom, there are buttons for 'Save and Close', 'Save', and 'Cancel'.

4. Click **Yes** in the **Confirmation** pop-up box to continue.

The screenshot shows a 'Confirmation' pop-up box. The text inside the box reads: 'This action will transfer the Final Calculated Grade to the Final Adjusted Grade for all 5 users. Are you sure you want to continue and save all changes, including any other unsaved changes on the page? This action cannot be undone.' At the bottom of the box, there are two buttons: 'Yes' and 'No'. A red arrow points to the 'Yes' button. The background shows a blurred view of the 'Final Grades' interface.

5. Your Final Calculated Grades will be transferred into the Final Adjusted Grade column. To then release the Final Grades, move on to **Step 6** below. If you do NOT want to release the grades at this time, click **Save and Close**. The final grades will be saved, but NOT released to students.

- You will then see the **Final Adjusted Grades** in the **Enter Grades** table, with open eye icons, indicating that those grades are now released to your students.

The screenshot shows the 'Enter Grades' interface with a table of student grades. The table has columns for 'Last Name, First Name', 'Final Calculated Grade', 'Final Adjusted Grade', 'Assignment 1', and 'Assignment 2'. The 'Final Adjusted Grade' column is highlighted with a red box, and a red arrow points to an eye icon next to the grade '19.42 / 39, NW'.

## Things to Remember

As alluded to in Step 5, if you are not finalizing the grades for all your students at one time, you can set and save your **Final Adjusted Grades** *without* releasing them, and then release them once you have finalized all your students' grades. In addition, make sure your Final Calculated Grade is set to the **Camosun Standard Grading Scheme**:

- Edit** your Final Calculated Grade.
- In the **Grade Scheme** drop-down menu, select **Camosun Standard Grading Scheme**, and click **Save and Close**.

The screenshot shows the 'Properties' dialog box for a grade item. The 'Grade Scheme' dropdown menu is open, showing 'Camosun Standard Grading Scheme' selected. A red box highlights the dropdown menu and the 'Save and Close' button.
