

Sharing Kaltura Videos outside of D2L – Kaltura Tutorial

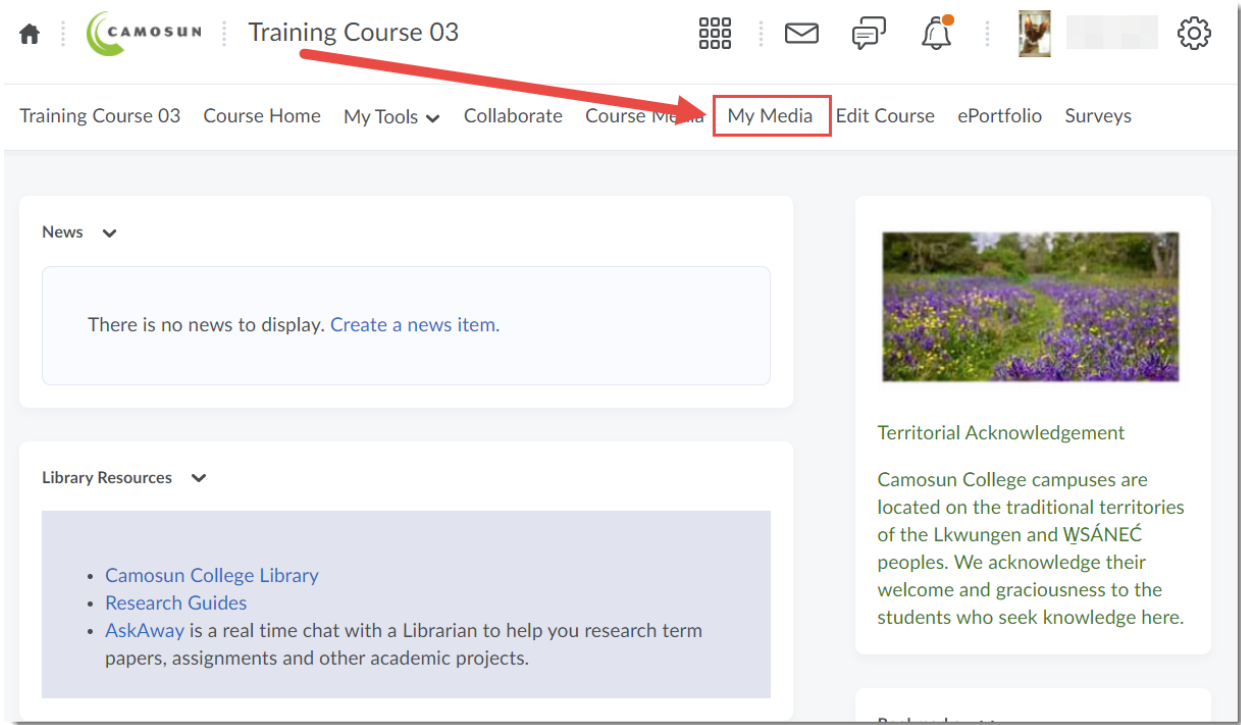

This tutorial is designed for faculty who have previous experience using D2L, who have uploaded media to **My Media** in D2L and shared to a **Course Media** gallery in a Master or DEV course site. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

Scenario

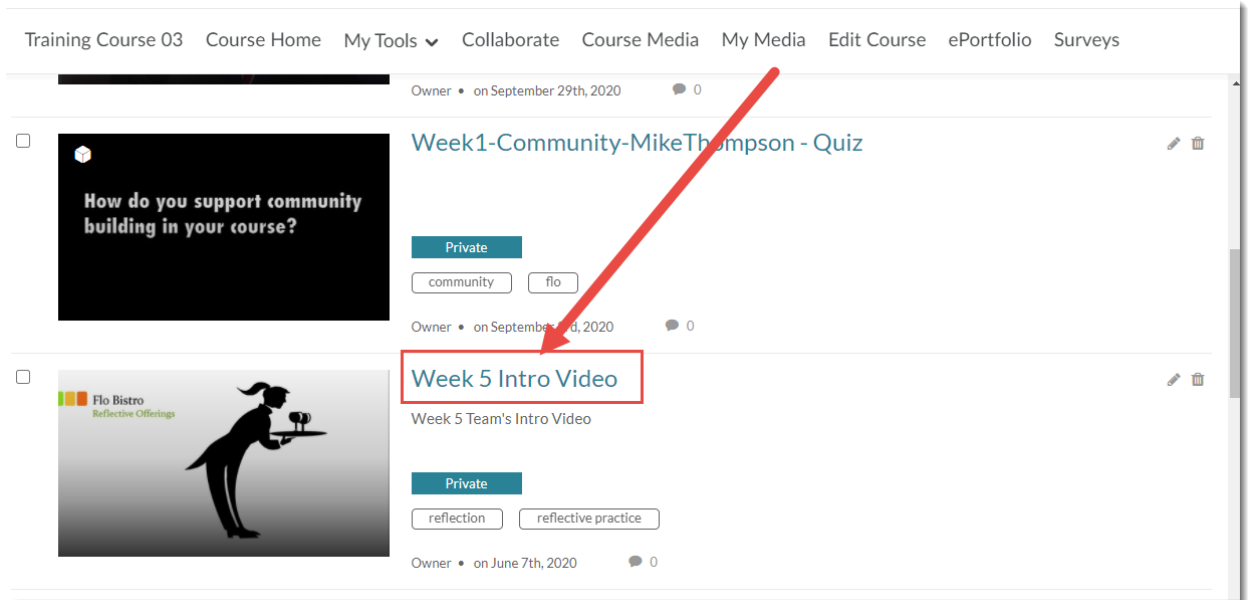

This tutorial will cover the steps involved when you wish to share a Kaltura video stored in your My Media space in D2L, to someplace/someone outside of D2L. This will involve copying a URL for your video that someone could click on and open in a browser tab to view without needing to have access to your D2L course site.

Steps

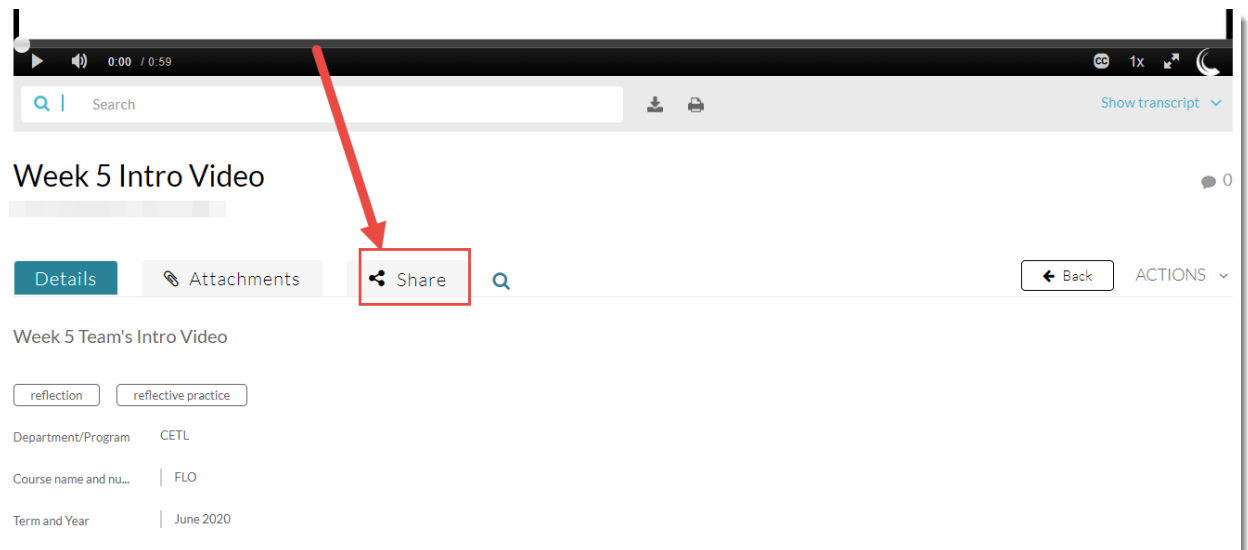

1. Go to your D2L course and click **My Media**.

2. Click the title of the video you wish to share.

3. Scroll down and click the **Share** tab (note that you may need to click the **Details** tab first if your screen is small).

4. Within the Embed code, copy the part starting with **https** and ending before **width** (NOT including the quotation marks) and you will have a hyperlink of the video you can send out or post somewhere outside of D2L. See the highlighted section in the image here for an example of what to copy.

The screenshot shows a video player interface with a navigation bar at the top containing links like "Training Course 03", "Course Home", "My Tools", "Collaborate", "Course Media", "My Media", and "More". Below the navigation bar is a "Share" button and a search icon. The main content area is titled "Embed" and contains a large block of HTML code. A red arrow points to a specific part of the code: `src="https://admin.video.ubc.ca/p/160/sp/16000/embed/iframeJs/uiconf_id/23451515/partner_id/160?iframeembed=true&playerId=kaltura_player&entry_id=0_6ekxdyx5&flashvars[streamerType]=auto&flashvars[localizationCode]=en&flashvars[leadWithHTML5]=true&flashvars[sideBarContainer.plugin]=true&flashvars[sideBarContainer.position]=left&flashvars[sideBarContainer.clickToClose]=true&flashvars[chapters.plugin]=true&flashvars[chapters.layout]=vertical&flashvars[chapters.thumbnailRotator]=false&flashvars[streamSelector.plugin]=true&flashvars[EmbedPlayerSpinnerTarget]=videoHolder&flashvars[dualScreen.plugin]=true&flashvars[Kaltura.addCrossoriginToIframe]=true&wid=0_8xqnf3jh" width="400" height="285" allowfullscreen webkitallowfullscreen mozAllowFullScreen allow="autoplay *; fullscreen *; encrypted-media *" sandbox="allow-forms allow-same-origin allow-scripts allow-top-navigation allow-pointer-lock allow-popups allow-modals allow-orientation-lock allow-popups-to-escape-sandbox allow-presentation allow-top-navigation-by-user-activation" frameborder="0" title="Kaltura Player"></iframe>`. The portion of the code starting with `https://admin.video.ubc.ca/p/160/sp/16000/embed/iframeJs/uiconf_id/23451515/partner_id/160?` and ending before `width="400"` is highlighted in yellow. Below the code block, there are controls for "Start & End Time", with "Start at" and "End at" both set to "00:00:00".

Things to Remember

The link you share will work as long as the video it directs to exists in your My Media space.
