

Locating and Viewing a Student Badge

This tutorial is for faculty who have previous experience using D2L. For further information or assistance, go to our [Team Dynamix Support portal](#) and click the appropriate Category to submit a ticket.

Scenario

This tutorial will cover the basic steps in locating and viewing a badge that a student has earned in another course, such as the Academic Integrity course.

Steps

1. Go to the **Classlist** tool in your course.
2. Locate the **name** of the student whose badge you want to locate and view and click on the **profile image** to the left of the student's name.

<input type="checkbox"/>		Student, Jason ▾ ●	jason_student	Student
<input type="checkbox"/>		Student, Training01 ▾	training.student01	Student
<input type="checkbox"/>		Student, Training04 ▾	training_four	Student

3. From within the student's profile, you will see the badge(s) under the **Awards Showcase** label.

4. Click on the badge to **enlarge** it and read its details.

Things to Think About

If a student tells you that they have earned a badge in a specific course, but you cannot see it, that may be because they have not shared their badge to their Profile. Refer students to the [Sharing Badges \(Awards\) to your Profile in D2L tutorial](#) to complete that process.
